

## **GOLDEN IMPALAS BUSH RESORT**

The Jewel of Dinokeng Game Reserve

### **OUR AMAZING WATER SUPPLY**

At Golden Impalas Bush Resort we are blessed with a plentiful supply of high-quality water.

Our borehole extends more than 150 meters into the ground and terminates in a huge cavern of clear, pure water.

Hydrologists estimate that the water we are using is over 100 years old, following slow percolation through the overlaying bedrock.

Tests show that our water meets all the standards required for top quality potable water.
